

Meet David G.M. Bramwell, Sr.

Retired Veteran

Attending public school in Brooklyn, New York and joining the United States Marine Corps at an early age afforded me the opportunity to travel the world and earn a bachelor's degree from Embry Riddle Aeronautical University and a master's degree from Golden Gate University. After 21 years of service I was honorably retired and continued my education by earning a Master's Certificate in Information Security Management from Villanova University.

I started working for the Federal Government as an Information System Security Officer and soon started a company where I managed contracts for the Federal Government. I was then able to utilize my Homeownership Veteran's benefits and it didn't take long to learn what is or is not a good investment. After many personal real estate purchases and sales, I became inquisitive as to how I could position myself to assist others especially Veterans in the homeownership process and have win-win outcomes. During that time I became extremely knowledgeable as to the New Home Construction process, Assertive Buyer Negotiations including how to avoid the pitfalls; which ultimately led to a mission to establish a valuable Real Estate Career founded upon serving others.

Today I am proud to say that I am a part of the Elite Realtor Team of New Vision Reality. To keep abreast of current Real Estate trends, I regularly attend strategic trainings. I am active in the marketplace, diligently working with prospective homeowners and successfully facilitating real estate transactions. I understand the importance of keeping up with the latest technology and social media uses, to further enhances my ability to position my clients for success in this diverse and rapidly changing Real Estate Market.

It gives me great pleasure to know that I am helping to make homeownership dreams a reality! I enjoy what I do, and personal attention and constant communication are what my clients say they appreciate most!

My Philosophy: Successful people never stop serving of learning. My job is never done, until my customers are satisfied and smiling with **KEYS** in their hands.
